

Android and Apple Client “Workspace One” Installation Instructions

1. Download the following apps from the App Store for Apple iOS, or the Play Store for Android
 - a. VMware Horizon
 - b. Citrix Workspace
2. You do not need to configure either the VMware Horizon or Citrix Workspace applications, so once downloaded you may close out of them without filling in any required information.
3. Open your browser and login to home.hshs.org just as you would from a desktop. After logging in, you will be presented with your available applications.
4. Upon launching an app, the correct VMware or Citrix client will automatically be selected, provided you have installed them as noted in Step 1.
